

## Interconnector's Planned Maintenance for Calendar Year 2025 and 2026.

### Planned Maintenance Shutdown for Calendar Years 2025 & 2026

Following our stakeholder consultation issued on 30 July 2024 which concluded on 27 August 2024, INT is pleased to confirm a provisional planned maintenance shutdown period of up to 20 days commencing Wednesday 01 October 2025.

The duration will be confirmed in April 2025.

In addition, a further proposal was made for Calendar Year 2026. Here, the provisional planned maintenance shutdown will be for a period of up to 20 days in the month of September 2026.

There will be no flow through the Interconnector in either direction for the duration of the maintenance period.

### Interconnector Limited - Background

Interconnector Limited owns and operates the strategic bi-directional gas pipeline and terminal facilities linking the UK and continental European energy markets. The system is capable of transporting approximately 803 GWh/d from Zeebrugge to Bacton and 651 GWh/d in the opposite direction.
